

Additional triangulation along the international boundary not shown on this diagram.

Additional triangulation in this marked area will be based on triangulation diagram VICINITY OF KING COUNTY

Note: Data may be requested by quadrangle, county, or other unit. Since publication of data in quadrangle units may not be complete for this State, requests for information by quadrangle number will be supplied with data in whatever form is available.

Each 30 minute quadrangle (shown in blue) is identified in the southeast corner by a six digit number showing successively degrees of latitude, degrees of longitude, and position in its one degree quadrangle.

Additional triangulation in the areas outlined by heavy broken lines will be found on triangulation diagrams indicated by numbers.
